FOSTEX

IMPACT OBSERVED

Project ongoing

- *At individual level:* learning and connection between all the participants, improvement of motivation from the beginning, learning about how to proceed with technical and financial reporting, and learning to work on based objectives
- *At institutional level:* improvement of implication of the HEIs from beneficiary countries of the institution
- *At regional level:* interest among the main stakeholders to participate in the different activities of the project, higher participation than expected of staff on the capacity building
- *Sustainability prospects:* sustainability ensured with the creation of the collaboration platform, the network, the entrepreneurship and innovation plan and the training of the technical staff of the centers

CHALLENGES

- To provide the equipment on time
- All the problems related with the covid situation
